

# #DIGI INVENTORS CHALLENGE

In association with  
Andy Murray and the  
Digital Health & Care Institute

## Are you game for the #DigiInventorsChallenge 2019?

Following the success of the #DigiInventorsChallenge 2017 and 2018, the Digital Health & Care Institute (DHI) in association with Andy Murray, are now seeking the next life-changing idea in digital health and care with the launch of #DigiInventorsChallenge 2019.

Our annual challenge calls for teams of Scottish secondary school pupils to enter ideas that will help young people improve their physical activity and/or mental health, using digital technology.

Not only do you get to learn new entrepreneurial skills from our partners, you also have the chance to win some great prizes!

## We need your help!

We want to hear from you if you have an idea that uses digital technology to help young people improve their physical activity &/ or mental health.

Calling all parents, teachers, youth workers and school pupils we need you to spread the word and get involved in our #DigiInventorsChallenge 2019.

Email [info@digiinventors.com](mailto:info@digiinventors.com) if you would like us to email you digital artwork to share with your networks.

## 2018 winners - St Maurice's High School

Their idea Fakeaway was a healthy, lifestyle application and social enterprise aiming to educate and promote the importance of healthy eating to young people.

The app shows healthy alternatives to takeaways, while providing a weekly shopping list, tailored to the personal budget and dietary requirements of the user.

Since winning, the team have worked with SwarmOnline and ORCHA to develop and refine a working prototype.

They are now sourcing additional seed funding to turn the prototype into a viable product, that our young people will be able to download and use.
