The screenshot shows the Enterprise Europe Network website for the "£1m Collaborative R&D fund with Catalonia - Apply Now". The page features the Enterprise Europe Network logo and the ACCIÓ logo. A large image of the Spanish flag is prominent. The main text states: "Scottish Enterprise and The Catalan Trade and Investment Agency (ACCIÓ) are working together to directly fund international collaborative innovation projects between companies from both regions." It details that Scottish Enterprise will invest around £1 million. A "Key Dates" sidebar lists the webinar on 28th May 2019, call opening on 31st May 2019, and call deadline on 10th Oct 2019. A "Webinar" section includes a thumbnail for "Webinar Housekeeping" and a "WATCH NOW" button. A "Call Details" section provides financial information: "We expect the Scottish element of joint projects to have total eligible costs between £150,000 and £350,000." A "Why Catalonia?" section notes that Catalonia is a strongly industrialised region.
